- 2006 *Established Artsburg Creation*

Eslite Studio in Hong Kong

My first solo exhibition was held in Eslite Hong Kong last year. The 99 roses painting is my favourite work. Each rose exhibits a different demeanor of a rose and the use of colour was arranged carefully.

Art of Toile Painting
by Cary Chan

Table Painting

Painting on furniture is a traditional folk art in Nordic and Scandinavian countries. Every pattern carries a special meaning and blessing for the family. I enjoy decorating my home with love and good wishes. My art pieces include Chinese, Japanese and European styles. I dream of drawing a house number sign with roses for all buildings and houses in Hong Kong.

Decorative Paintings

I love visiting palaces all over the world. The Forbidden City in Beijing is one of my favourite. Every furniture and decoration are covered in paintings. What captivated me the most, is how a dragon or a phoenix can be drawn by various ways to recreate their demeanor. All these ancient art inspired me to do tole painting.

Vision

I hope to have the opportunity to work with Perfume brands by decorating perfume bottle and box with paintings. I would also love to hand paint on purses and handbags for different brands.

Rose • Jo Malone

Teaching Philisophy

I teach to pass on the most authentic painting techniques, brushwork and use of color to my students. I believe all students are individual; I love to see students with steady a painting foundation run wild with their imagination and create their unique artistic style.
